

24 July 1979

STATINTL

MEMORANDUM FOR: [redacted] Chief
Industrial & Certification Branch
Clearance Division, Office of Security

STATINTL

FROM: [redacted]
Security Officer
Foreign Intelligence Surveillance Court

SUBJECT: Request for Clearance Data

This is to formalize our conversation of 23 July 1979, regarding the need for a secret clearance for an individual to perform a survey of the work requirements of the Clerk of the Foreign Intelligence Surveillance Court. As security officer for that court, I plan to structure the environment of that work survey so that the individual performing it will require access to information classified no higher than secret. In order that there may be a proper basis for such access, I request that you cause appropriate name checks to be conducted on [redacted] the individual who will perform the work survey, and that the results of the checks together with your evaluation of [redacted] eligibility for secret clearance be provided to me. Identifying data on [redacted] is provided in the attached copy of a letter to me from the Deputy Director of the Administrative Office of the U.S. Courts. I can be reached on the staff of the DCI Security Committee, Room 3D39 Headquarters (extension [redacted]). Early action on this request would be appreciated.
